### **Information Sheet and Consent Form**

Hello,

We are researchers from a university (big school) and we are conducting a study in your village. We are conducting a study on how individuals make economic decisions. We would like to ask you a few questions about your family and livelihood sources. We will also conduct a census of your village to record who lives in each house and where the houses are located. Any information that you provide us will be kept completely confidential and we will not disclose it to anyone in your village or anywhere else. Moreover, you do not have to answer any questions that you are uncomfortable answering. You can withdraw from this study at any point, even if you have started answering our questionnaire and then decide that you do not wish to continue.

We would also like to take 2 pictures of you. These picture will be shown to the other residents of your village in order to find out how they are related to you. Once we have finished our study in your village, one picture will be given to you to keep.

If you do not want to answer our questions and do not want us to take a picture of you that is completely fine. If you are happy to answer our questions but do not want us to take a picture of you, or vice versa, that is also completely fine.

Have you understood the information that we just provided?
